About us

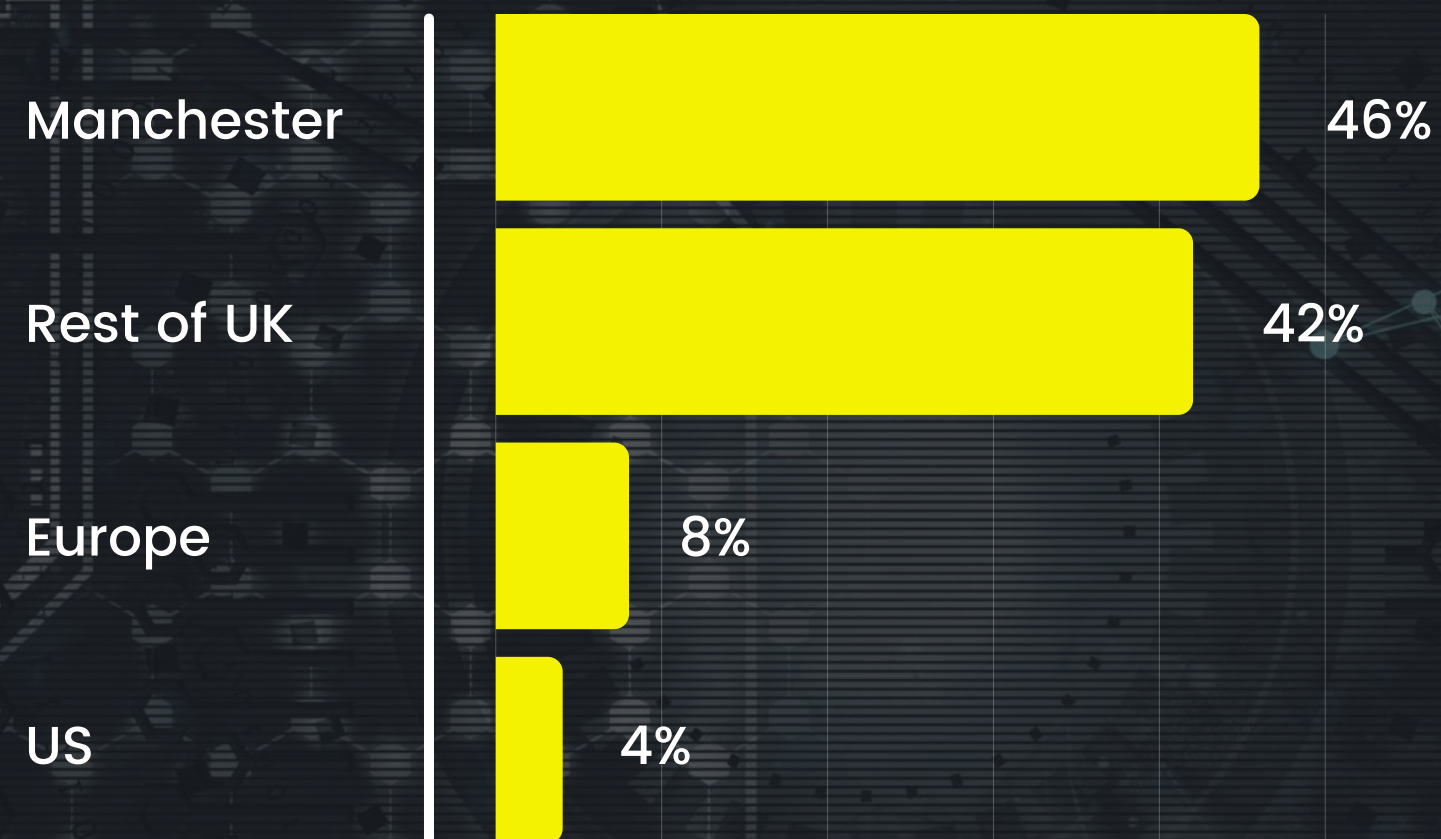

We are a global technology recruitment and search consultancy. We specialise in the Web and Software development market and are now growing to become one of the leading staffing companies in the UK.

We offer flexible services, from single hires to complete IT work solutions, keeping it simple for tech-led companies around the world. Whether a tech start-up, media, digital agency, investment bank or blue-chip tech organisation our services cover multiple sectors.

We source diverse tech specialists across all levels and have established an enviable reputation by continuing to deliver for our clients. We know the value of our connections and have a passion to work alongside them.

Who we are

Established in early 2018, specialising in the web and software development market, we now deliver complete IT Workforce solutions to both SMEs and large companies globally

Fairmont Recruitment was established in 2018. We operate in a multitude of markets serviced by experienced consultants whom each have a niche specialism.

Our team operate solely in these markets, providing expert knowledge and networks allowing them to quickly reach the best candidates in the market.

We specialise in a variety of searches, including large-scale contract recruitment for projects requiring 50-100 candidates, focused and niche permanent searches, as well as retained and managed RPO search.

Who we work with...

We work with many clients throughout the UK, Europe and the US and we are very proud to be partnering with each and every one of them. We provide successful staffing solutions to all clients and the selection below gives you an indication of the type of client that we service on a regular basis.

Fairmont x Ultimate Performance

Following private equity backing Ultimate Performance underwent a round of vendor selection to find a suitable consultancy to partner with in supporting this growth.

Fairmont Recruitment were selected and signed an exclusive agreement to carry out the work.

Fairmont provided:

- Market intel – an overview of the technology market in Manchester – skills, salary benchmarking, potential hunting grounds for suitable candidates
- Interview advice to hiring managers
- Outsourcing of the hiring process including interview scheduling, candidate/ client feedback exchange, offer management
- Weekly catch up calls to keep the project on track

As a result of excellent planning and executing the initial phase has delivered successful placements of 10 roles listed below within the agreed time frame.

- Infrastructure & Operations Manager
- Infrastructure Engineer
- Test Analyst x 3
- Data Analyst
- Mobile Developer
- Mobile QA Tester
- WordPress Developer
- Service Desk Analyst
